VIRTUAL PANELS

BROCHURE

# INTRODUCTION

Virtually connecting the industry's leaders

Telecom Review has always been a pioneer in the digital media space. Embracing digitalization has always been a key pillar of our vision and strategy. Given the current circumstances, we have decided to pursue our mission of connecting industry leaders.

We're glad to announce that a series of virtual panels will be organized using Zoom application to connect the industry's leading operators, vendors, ICT companies, governmental entities and consultants.

The panels will include up to 6 panelists and will be moderated by Telecom Review team. The outcome of the panel discussion will be published in a special newsletter that will be sent to our large database of over 45,000. This e-mail blast will give participants and the brands they're representing great exposure.
