VIRTUAL PANELS BROCHURE 2022

VIRTUALLY CONNECTING INDUSTRY LEADERS

INTRODUCTION

Telecom Review has always been a pioneer in the digital media space.

Embracing digitalization has always been a key pillar of our vision and strategy. Building on previous years' successes, we continue in our mission of connecting the industry's leading operators, vendors, ICT companies, governmental entities and consultants.

Our series of **virtual panels for 2022**, part of the **Telecom Review Group** activities, will be organized using video conferencing applications.

The numerous panels throughout the year will target our different ecosystems and markets, presenting a wide number of panelists and moderated by industry experts.

The outcome of each panel discussion will be published in a special e-newsletter that will be sent to our large database of over 45,000. This e-mail blast will give participants, and the brands they are representing, great exposure.

SOME OF OUR PREVIOUS VIRTUAL PANELS
